## 2013 Human Product Catalog Sheet Memory Chest

The Memory Chest is a separated compartment which can be added to any 50 c.i. or larger cremation urn. The memory chest is a great place to keep cherished items and mementos (i.e. medals, jewelry and photos) of your loved one, while the separated lower area contains a section that is the cremation urn to hold their cremains. The memory chest is beautifully lined with a hunter green felt flocking on the sides and bottom of the memory chest area. The standard depth of the memory chest area is approximately 1-1/2" deep and comes with two hidden solid brass hinges and a solid brass friction latch.

Chest Add-On Option May Delay Shipping Up to 5 business days

Special Note: Cubic inch capacity with 1-1/2" deep Memory Chest option (Subtract 1-3/4" from height of inside dimensions). This option will reduce the cubic inch capacity of the urn. Please refer to the urn specifications for the cubic inch capacity.

**100% Made In America**
